

Additional funding 2021-2022

For the 2021-2022 there are a number of additional funding streams provided to schools to mitigate the effects of the unique disruption caused by coronavirus. These funds need to be ring-fenced by finance leaders and only used for approved activities.

Schools should use this funding for specific activities to support pupils to catch up for lost teaching time over the previous months. For some of the tuition funding there are restrictions in place, and the DFE will collect detailed information as to how the funding has been spent. To support schools to make the best use some of the funding, the EEF has published a support guide:

<https://educationendowmentfoundation.org.uk/covid-19-resources/covid-19-support-guide-for-schools/#nav-covid-19-support-guide-for-schools1>

As with all government funding, school leaders and governors must be able to account for how the money is being used. Therefore, the impact and spending strategy for this catch-up premium will be reviewed regularly throughout the 2021-2022 academic year. When Ofsted re-commence routine inspections, they will make judgements about the quality of education being provided which will include how you are using the funding to ensure the curriculum has a positive impact on all pupils.

Funding source	Amount
Recovery Premium Funding	£38,063
DFE Tutoring Funding	£31,973
Remaining COVID catch-up from 2020-2021	£10,000
CET Additional Funding	£10,000
16-19 Tuition Funding	£0
TOTAL Funding	£90,036

Additional funding strategy outline
