Academy Uniform Guidance

Introduction

We are proud of our students and aim to ensure this is reflected in how they present themselves every day. We want students to be able to dress in a professional style that represents their ambitions, allows them to feel smart and be proud to represent Caister Academy.

Our uniform policy is intended to provide clear, consistent guidance for parents and students. Essential items from an approved supplier are kept to a minimum, but are in place for some garments to ensure a consistent standard is straightforward to follow.

Through a process of regular review, we aim to ensure that our approved supplier delivers: value for money, quality, comfort and durability, and a sensible range of size and fit options. In addition, our approved supplier is asked to provide online and in person purchasing opportunities.

Additional financial support is available to support families with the cost of uniform. This is through access to a school held hardship fund and a second-hand uniform service.

Where changes to academy uniform are made, these will be implemented gradually, to minimise unnecessary wastage and additional costs for parents.

All uniform decisions are made with reference to the Department for Education's non-statutory guidance on [school uniforms](#) and statutory guidance on [cost of school uniforms](#).
